

Sections of the Screen

1. Disease Taxonomy

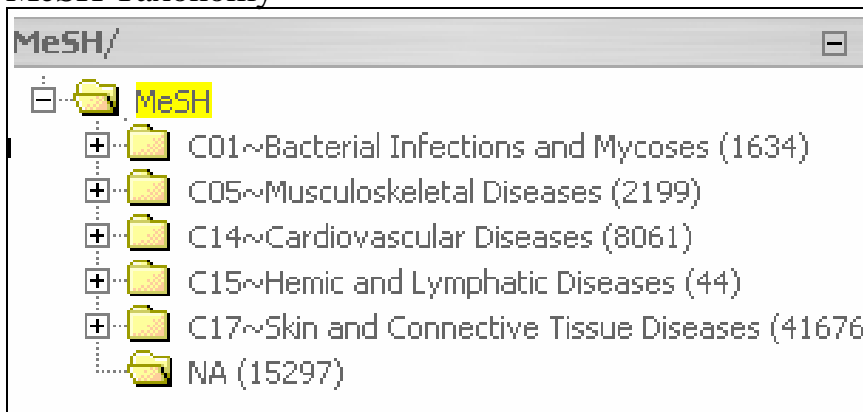

Click the top level text to include all topics

Press the + to expand or the – to contract

Click on text to pick a topic

This section will change depending on your role. If you are in the Sales and Marketing role, a Sales taxonomy will be displayed. If you are in the Finance role, the Finance taxonomy will be displayed.

2. MeSH Taxonomy

3. Competitor Products Taxonomy – Pie chart

To select a competitor or product click either the legend (text) or the associated color.

Full text Search and Source selection

If you want to save a search and run it at a later time, after doing your search and refining your criteria, press the “Save...” link. Then enter a “Save As:” name and press the “Save” button. Pressing Enter will **not** save a search request.

The screenshot shows a search interface with the following elements: a search input box at the top; a 'Save...' link to the right of the search box; a 'by Verity' button with a magnifying glass icon; a 'Refresh' button with a circular arrow icon; a 'Search Within' checkbox which is checked; and a 'Source:' dropdown menu currently set to 'Any'.

Enter search terms in this box and press the “Search by Verity” button.

To further refine a search: click this checkbox

To Reset: back to the initial state and see all articles It is a good idea to do this before starting a new search. Otherwise you may be searching within already selected criteria.

If you want to limit your search by Source (where the data is from), click the down arrow and pick a Source. Search will automatically happen.

To enter more complex expressions, you may use ‘<and>’ and ‘<or>’ operators in your search. To be exact, we recommend that you use parentheses to ensure that the proper query is run.

For example, '*psoriatic arthritis*' <and> *psoriasis* will produce a different result than:

(psoriasis <or>arthritis) <and> cancer

If you save a new search with the same name as an existing saved search you will overwrite the old saved search and lose it.

If you want to see the current set of selection criteria. Hold your mouse over “view search details” (in the middle of the screen next to Search Results)

4. Saved Searches

| Query | User | Delete | Alert | Share |
|-------|--------|--------|-------------------------------------|--------------------------|
| drug | chrisp | | <input checked="" type="checkbox"/> | <input type="checkbox"/> |
| test | chrisp | | <input checked="" type="checkbox"/> | <input type="checkbox"/> |

Callout lines from the table point to: the 'drug' query name, the 'Delete' column header, the 'Alert' checkbox for the 'drug' query, the 'Alert' checkbox for the 'test' query, and the 'Share' checkbox for the 'test' query.

Run a saved search by clicking on the query name

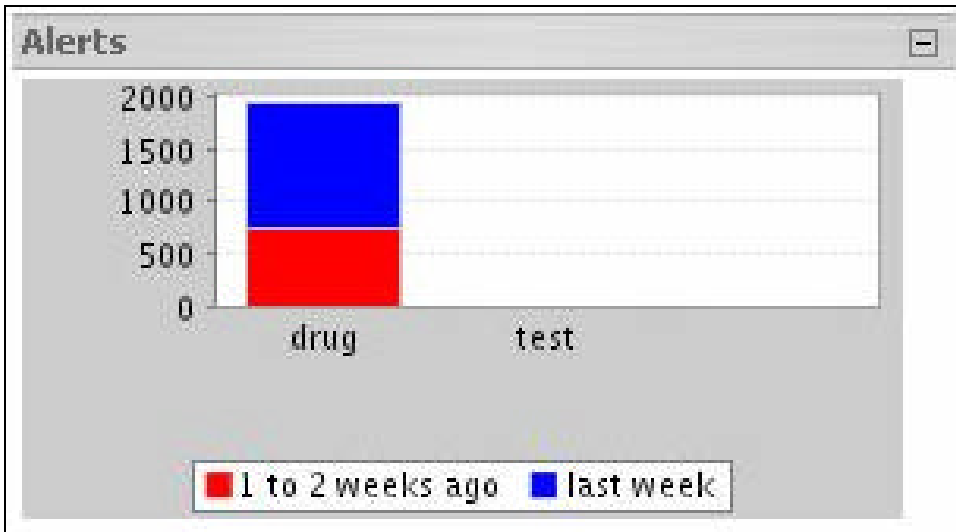

You can delete a saved search by pressing the garbage can icon

Mark the query as an Alert

You can share a search with other users in your role by clicking this checkbox

Note (all saved and shared searches are role specific. You will only see searches applicable to the role that you are in).

5. Alerts

When a saved search is marked as an alert, you will see it in the Alert box. Any results for this query for last week will be in blue and for 1-2 weeks ago will be in red. To see the results for a particular period, click on the color.

Note: The intent of this function is to enable the user to see trends for data that they are monitoring. Users are currently *limited to 5 alerts*. A second kind of alert available in version 2 will be a daily job which runs your saved alert and sends new records which meet your saved criteria to your email or an email distribution list.

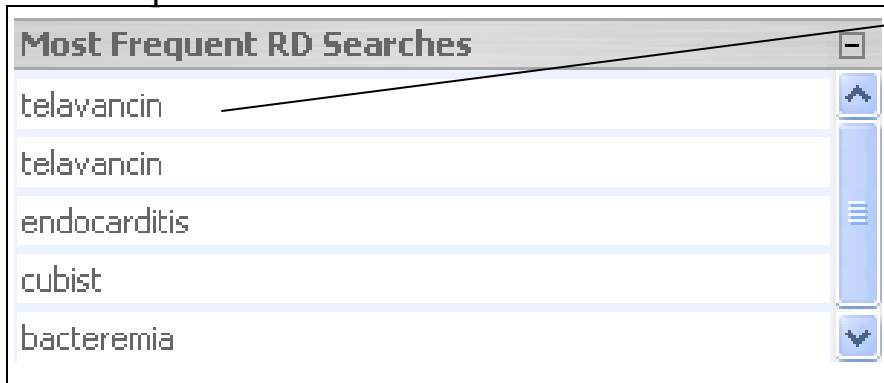

6. Shared Searches

| Query | User |
|---------------------|-------|
| NabiStaphInfections | barry |
| Rasmussen | barry |
| cubist | maya |
| MRSA and bacteremia | maya |

To run a “Shared Search”, click on the query name

If you like you can further refine and save as your own by pressing the “Save...” link.

7. Most Frequent Searches

Selecting a Frequent Search will execute it

If you look at the Most Frequent “Role” Searches, you’ll see the text queries that others in your role are looking for.

8. Search Results

| Search Results - view search details | | |
|--------------------------------------|--|--------------------------------|
| Result Count: 61647 | | Results per page: 10 20 50 |
| Date | Title | Source |
| 03/11/05 | Abbott Laboratories - Global Citizenship - International Human Resources Programs | Abbott Laboratories Website |
| 03/11/05 | Abbott Laboratories - Global Citizenship - Supporting Local Programs Worldwide | Abbott Laboratories Website |
| 03/11/05 | Global Citizenship - Environment, Health and Safety (EHS) Awards & Recognitions | Abbott Laboratories Website |
| 03/11/05 | Abbott Laboratories - Global Citizenship - The connection between the early years and the business community | Abbott Laboratories Website |
| 03/11/05 | Abbott Laboratories - Global Citizenship - EHS - Monitoring: Evaluating How Well We Perform | Abbott Laboratories Website |
| 03/11/05 | Abbott Laboratories - Global Citizenship - Support of Education | Abbott Laboratories Website |
| 03/11/05 | Abbott Laboratories - Global Citizenship - Communities Around the World | Abbott Laboratories Website |
| 03/11/05 | Abbott Laboratories - Global Citizenship - EHS - Implementing to Achieve Our Goals | Abbott Laboratories Website |
| 03/11/05 | Abbott Laboratories - Global Citizenship - Educational Exhibits | Abbott Laboratories Website |
| 03/11/05 | Abbott Laboratories - Global Citizenship - Step Forward | Abbott Laboratories Website |

Click on a title to see the detail behind an article. Words that you’ve searched for or definitions of taxonomy nodes selected will be highlighted in Red for html articles (but not PDF articles). The highlighting is helpful in determining why an article was selected and allows you to determine which rules may need to be modified.

Click on the word “Date”, “Title” or “Source” above the results list to sort the results “high to low” or “low to high”. You may have to press twice to get in the correct order.

Set your page size as desired to 10, 20 or 50.

You can go to the desired page by pressing a page number, or using the VCR type controls.

9. Latest News

The latest news section is data loaded overnight and is specific to your role. You can click on any of the news items to view the full article.

Application hints

Login

- Enter id and password and press the login button. An incorrect id or password will not currently show an error message. The id and passwords must be re-entered correctly and the login button pressed.
- If you are inactive for more than 30 minutes, you will be returned to the login screen and need to re-login.
- Your ID and current Role (Research and Development – RD, Sales and Marketing –Sales, Finance) are displayed up top near the date

General Navigation

- Click the – (minus) in any gray bar to hide the section that you are not interested in seeing.
- To change your current role (for a different view into the same data), press “Preferences”, Select a role and press the “Save” button. The taxonomy (top left) and all saved, shared queries, alerts, Most Frequent Searches and News will be different.
- When you are done searching, press “logout’ at top left

If you encounter an error, please try and document how it happened so that we can research and repair the problem.
